

MrClutch CLUTCH PLATE RESURFACING

PLEASE PRINT THIS FORM

Ask us to resurface the wet plate friction material for any make of bike.

How the resurfacing process works...

- 1 – Send the friction plates you want re surfaced to the address below, Please include your return address, email address and contact phone number and sign the Agreement Form. ALSO: you must give us the maximum thickness of the friction plates according to the Bike's Owners Manual or instruct us as to the thickness you want.
 - 2 - Once received, the old friction material will be removed by Mr Clutch.
 - 3 – The friction plates will then be cleaned and prepared for bonding.
 - 4 – The new friction material is cut and bonded, oil slots are cut into the material.
 - 5 – After 5 -9 days, the re-surfaced friction plates will be sent back to you at the address you provided by Australia Post Cash on Delivery Service (COD available for Australian customers only - overseas please contact).
 - 6 – Customers can pick up and pay for the re surfaced clutch plates at their local Australia Post Office.
- Note: The minimum charge for re-surfacing is AUD\$100 (plus GST and freight costs where applicable).
- 7 – When you have the re-surfaced clutch plates back, soak them in the oil they will run in, re-stack the plates according to the owners manual, reassemble and then use the re-surfaced friction plates with no bedding in needed. ...and that's it.

Please complete the Agreement form below choosing the Friction material for your type of riding...
